Try a different kind of search:

- Do a browse search by title, typing just the first few letters of the title.
- Do a browse search by author, typing just the first few letters of the author's last name.
- Do a browse search by subject. Cross-references may help you find related subjects.

Search other sources: Click **Select Databases** and choose search targets beyond the library.

Run your search later: Click **Save Search** to run your search automatically at specified intervals. Automatic searches check for items that are new since the last time the search was run.

Get help from a librarian:

- Click **Library Info**, and click **Ask Us** on the Library Info toolbar to send a message to the library.
- Click the live reference link below to talk with a reference librarian online.
