Total Curriculum Related Requirements	0-2
Total General Education Requirements	0
Total Elective Requirements	0

Upon completion of Phlebotomist Technician certificate program, students are eligible to sit for the American Medical Technologists (AMT) certification examination. Total didactic clock hours required for certification is 120 hours plus 50 successful vein punctures and 10 successful capillary punctures from human sources.

Notes:

To meet the requirements of 16 Credits to receive the Phlebotomy Certificate of Proficiency, the optional classes can be taken either in Spring or Fall semesters depending on when the class is offered.

Phlebotomist Technicians can perform insurance draws or work at prisons, doctor's offices, hospital labs, and a wide variety of medical companies.

If a student is interested in working at Mt. Graham Regional Medical Center or another hospital, the student may want to consider the Medical Laboratory Assistant certificate instead.

Courses in the program may require vaccinations or other medical tests. See course descriptions in the catalog for additional information.

Helpful website: <http://www.americanmedtech.org> (American Medical Technologists)

Additional requirements to obtain this certificate:

All courses must be completed with a grade of "C" or better.

The student must complete an academic requirement. Check the catalog for information on meeting the requirement.

The student must file a petition for certificate through Gila Hank Online.

The student must be free of any indebtedness to the College.

The foregoing is a recommended, or suggested, sequence of courses. If a student enters the program in the spring, or transfers credit in, the above would have to be modified.
