

Title :	Curriculum Processes	
Number :		6110.00
Approved :		10/19/23
Reference :	A.R.S. §15-1626; GCCCD 6230.01	

Program proposals shall be submitted according to the procedures and format prescribed by GCCCD Regulation 6230.01.

The College shall submit all curricula to the District Governing Board for approval. Curricula are programs containing a planned sequence of courses leading to an educational goal (i.e., degree or certificate). Once the curricula have been approved, departments may modify them by adding or deleting courses and changing credit hours, titles, etc. Prior to curriculum approval and implementation:

- A. A feasibility study shall have been conducted that establishes the need for the curriculum.
- B. For occupational curricula, the program design shall be based upon the knowledge and skills required for employment or advancement in the program field as determined by a systematic study involving potential employers and experts in the field.
- C. Transfer programs shall be designed to enable a graduate of the program to satisfy Arizona public universities and colleges lower-division general education requirements and to transfer to a public Arizona university and colleges with upper division status.
- D. A feasibility study shall have been conducted that demonstrates the District will have the financial resources, physical facilities, and qualified faculty to establish and sustain the curriculum.
- E. A review within the District shall have been conducted to assure that all affected entities within the District have been provided an opportunity to comment, following the District’s normal internal approval procedure.
