The District Governing Board shall insofar as possible act as a committee of the whole in carrying out its duties and business. The District Governing Board may, however, set up ad hoc committees to prepare reports or make recommendations on matters to appear before the District Governing Board. These committees shall be appointed by the Chairperson of the District Governing Board and shall function for the duration of their assignment and shall assume only the authority granted to them by the District Governing Board. At the time of appointment, the District Governing Board shall specify their assignment and authority.

The District Governing Board may also establish citizens advisory committees to assist it and the College President in exploring the needs of the College.

Since the District Governing Board has the legal duty to make final decisions, all committees appointed by the District Governing Board serve in an advisory capacity.
