MONTHLY SUMMARY

Lights are getting ready to turn on in Cosmetology! We have been installing the free-hanging light fixtures in the salons and reception area. As those go up all electrical pathways for lighting are being buttoned up. Millwork has also been delivered and is staged throughout the building, to ensure the finishes are protected, plastic wrapping will remain in place. The exterior of Grey Shell/RMC Clinic is complete, all brick veneer is in the process of being power washed. We have moved forward with installing the SES and pulled wire from the new transformer into the electrical switchgear. Inside the building, we are finishing the taping and texture of all drywall with paint coming up soon.

In the central courtyard, we have dug the foundations, laid the block, and installed the precast concrete tops for the planter benches. Throughout the site the final grading is complete as we gear up to install all landscaping and the new irrigation system.

FUN FACT

The Mona Lisa has its own mail box since the painting receives such a large amount of fan mail and gifts.

SCHEDULE & MILESTONES

February

- Cosmo Light Fixture Install
- Cosmo Restroom Partitions
- Cosmo Millwork Install
- RMC Clinic Tape & Texture
